New Minute Maid® Fruit Solutions® Contains MEG-3®

Another tasty way for people to contribute to their daily Omega-3 intake

Ocean Nutrition Canada Limited (ONC), supplier of MEG-3® brand Omega-3 EPA/DHA food and dietary supplement ingredients, is pleased to announce that Coca-Cola Ltd. has included the MEG-3® healthy food ingredient in their Minute Maid® Fruit Solutions® Omega-3 juice. This new juice blend from concentrate was launched January 22 in major grocery stores throughout Canada.

Minute Maid® Fruit Solutions® Omega-3 is available in a Mango Orange Passion juice blend and each 250 ml serving contains 50 mg of EPA/DHA from fish oil.

DHA (Docosahexaenoic Acid) and EPA (Eicosapentaenoic Acid) are the essential fatty acids important for good health and normal growth and development. Many studies have shown that DHA plays an essential role in the normal development of the brain, eyes, and nerves while EPA improves joint mobility. Together, EPA and DHA aid in the maintenance of cardiovascular function.

“Canadians have truly embraced Minute Maid Fruit Solutions since our launch last year,” said Stephanie Baxter, Coca-Cola Ltd. “With the launch of Minute Maid Fruit Solutions Omega-3 we are now able to provide Canadians with 0.1g of Omega-3, six essential nutrients, two fruit servings, no added sugar, and great taste. Most importantly, with this new addition, we continue to offer Canadian consumers innovative solutions to respond to their nutritional needs and now we can help contribute to their daily intake of Omega-3.”

Ian Lucas, Executive Vice President of Global Sales and Marketing at ONC, said, “Omega-3 EPA/DHA is so important for overall good health; however, a large part of the population is still not receiving the suggested daily intake of 500 mg of EPA/DHA per

day. The Minute Maid® Fruit Solutions® with Omega-3 will provide people with another way to help close that gap.”

Minute Maid® Fruit Solutions® are also available in two additional delicious flavours Orange Strawberry Banana and Tropical Blend (pineapple, mango, orange).

About Ocean Nutrition Canada Limited (ONC):

Ocean Nutrition Canada is a privately held company, whose major shareholder is Clearwater Fine Foods Incorporated. Clearwater Fine Foods Incorporated is a diversified holding/investment company whose significant holdings include a controlling interest in Clearwater Seafood's Limited Partnership, the world's largest integrated shellfish harvester and processor.

ONC is in the business of developing, manufacturing, and marketing Omega-3 EPA and DHA ingredients to improve human health. Ocean Nutrition Canada has a broad customer base, which includes multi-national companies in both the dietary supplement and the food categories. In 2006, the MEG-3® EPA/DHA ingredient was in 8 billion supplement servings and 2 billion food servings worldwide.
