Setting the Standard in Omega-3 EPA/DHA Fish Oil.

MEG-3® – Highest Quality and Purity

MEG-3® fish oils conform to world-wide quality and purity standards, including those established by the European Commission (EC), Norwegian Food Safety Authority (NFSA), Health Canada, and the United States Food and Drug Administration (FDA). MEG-3® fish oils are also verified by the United States Pharmacopeia (USP).

Trust the Quality

We achieve our commitment to quality by producing, testing, warehousing, and transporting according to:

- cGMP (current Good Manufacturing Practices)
- HACCP (Hazard Analysis Critical Control Point)

Trust the Purity

	GOED Limit	EC Limit	NFSA Limit	MEG-3® Fish Oil
Arsenic (ppm)	0.1	N/S	N/S	< 0.1
Cadmium (ppm)	0.1	N/S	N/S	< 0.01
Lead (ppm)	0.1	0.1	0.1	< 0.05
Mercury (ppm)	0.1	N/S	N/S	< 0.005
(1) Dioxin & Furans (pg WHO-PCDD/F-TEQ/g)	2.0	2.0	2.0	max 1.0
(2) Dioxin-like PCBs (pg WHO-Dioxin-like PCBs-TEQ/g)	3	N/S	3	max 3
Sum of (1) & (2) (WHO-PCDD/F+Dioxin-like PCBs-TEQ/g)	N/S	10	N/S	max 4.0
PCBs (ppm)	0.09	N/S	N/S	< 0.09
PAHs: Benzo(a)pyrene (ppb)	N/S	2.0	2.0	max 2.0

N/S = Not Specified

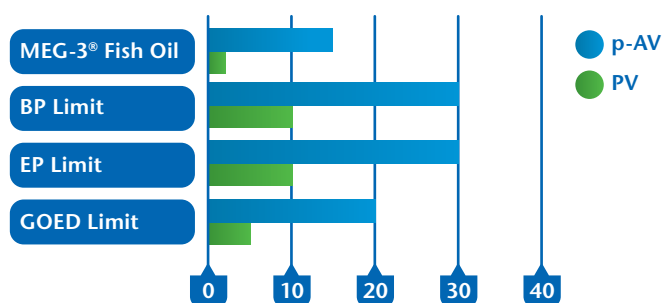

Trust the Potency

Ocean Nutrition offers a variety of Omega-3 EPA/DHA fish oils, including:

- MEG-3® 30 – containing 30% EPA + DHA
- MEG-3® Concentrates – containing up to 70% EPA + DHA, available in both ethyl ester (EE) and triglyceride (TG) forms
- Steam deodorized format for exceptional sensory qualities
- Microencapsulated powder format using patented Powder-loc™ technology

Trust the Freshness

We deem our oil to be fresh when it has minimal levels of oxidation. The key indicators of the oxidation level are Peroxide Value (PV) and p-Anisidine Value (p-AV). MEG-3® fish oil is well below the British Pharmacopeia (BP), European Pharmacopeia (EP), and the GOED Voluntary Monograph (Global Organization for EPA and DHA Omega-3) limits for PV and p-AV to ensure the best possible freshness.

MEG-3® – Reliable Supply

Ocean Nutrition is the world's largest supplier of Omega-3 fish oil concentrates. We operate two MEG-3® fish oil and two MEG-3® powder manufacturing plants, so you are assured of unmatched value and a consistently reliable supply.

MEG-3® – Sustainable Source

Ocean Nutrition takes great care to source its fish oil from sustainable fisheries that are strictly regulated by government agencies. The Peruvian upwelling region, where the cold Antarctic waters meet the steep continental shelf off the west coast of South America, is one of the richest marine environments in the world.

This fishery is highly regulated and protected by the Peruvian government to ensure that it remains biodiverse, environmentally responsible, and entirely sustainable. In fact, it has maintained a consistent anchovy and sardine population for the past 50 years, and with careful stewardship, it will continue well into the future.

Ocean Nutrition: Your Omega-3 EPA/DHA Partner

With Ocean Nutrition, you get the purest, highest quality fish oil available. But we also offer a number of value-added services including technical, regulatory, quality, R&D and marketing support. We're ready to help you with all your Omega-3 needs.

Full product information is available upon request.

The Health Benefits Your Customers Can Expect.

More than 8,000 clinical studies support the numerous health benefits of Omega-3 EPA/DHA from fish oil.

Health and Wellness for the Whole Family

- *A factor in the maintenance of good health*
- *DHA is a cellular building block*
- *Together, EPA & DHA provide health benefits at every life stage*

Heart and Cardiovascular Health

EPA and DHA combined may:

- *Support healthy circulation*
- *Maintain normal, healthy, triglyceride levels, an independent risk factor for coronary artery disease*
- *Help maintain cardiovascular function*

Brain Health

Omega-3 from fish oil containing EPA and DHA may positively contribute to:

- *Normal development and maintenance of the brain, eyes, and nervous system*
- *Cognitive development in infants and normal cognitive function in all life stages*
- *Supporting normal emotional well-being*

Anti-inflammatory

Emerging evidence suggests fish oil may:

- *Help maintain healthy joints*
- *Help support normal joint flexibility and mobility*
